

# Master of the Galaxy

*The world  
is my oyster*

The Galaxy is vast, rich and open for any species that discover space flight. But nine Elder Races are about to unleash the war to seize its stars and planets.

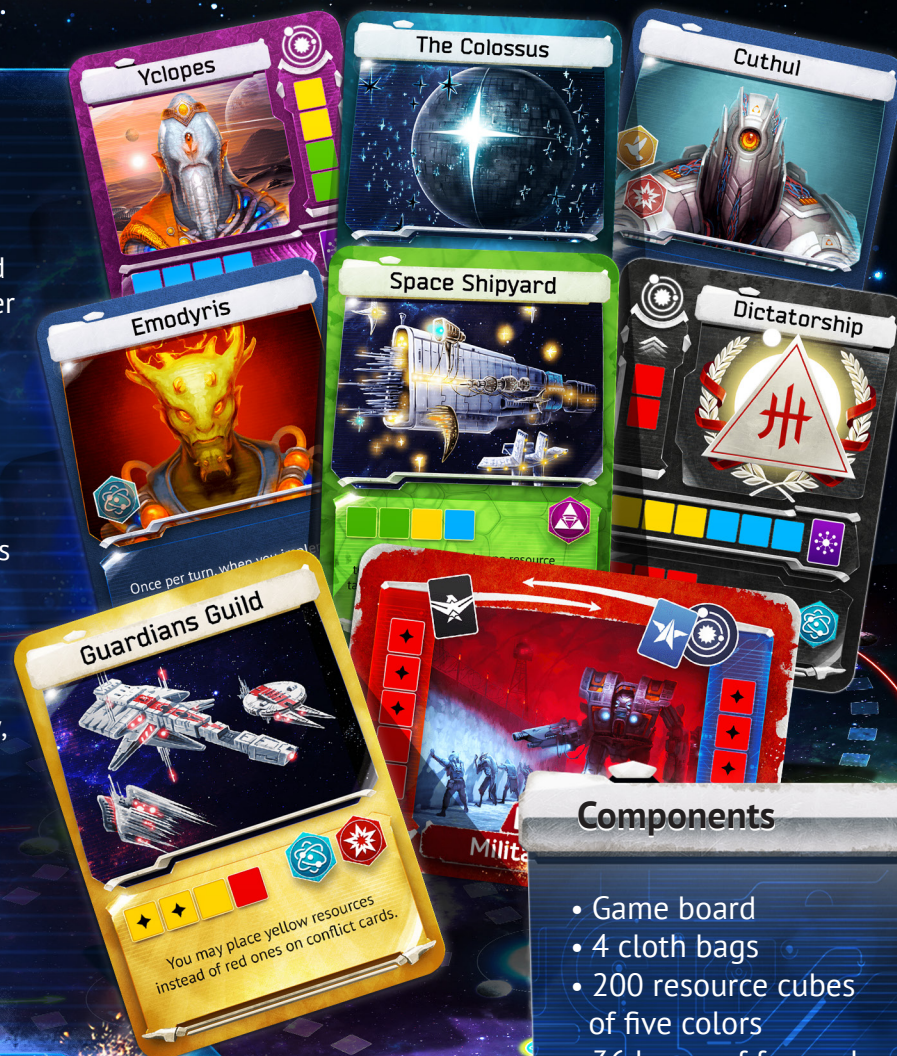

We are proud to announce the fast and furious 4X board game inspired by the best-selling computer game Master of Orion. eXplore, eXpand, eXploit, eXterminate!

At the start of your conquest of the Galaxy, you have one star system, one Race card and a modest supply of resources. During the game, you will fill your bag with new resources that may lead you to victory depending on your chosen strategy. Moreover, you can use Progress and Political cards to help you to victory!

You choose which way you will dominate the Galaxy –

- try to quickly spread your people all across the Galaxy,
- develop your science to a level unreachable by your opponents,
- embark on a methodical extermination of your rivals, it is up to you to decide.

All means are good if you are the winner!
