

NIGHTMARIUM

A game about conquering nightmares

A game about building nightmares So terrifying you'll see half of them in your dreams afterwards. You have cards representing Night Terrors, and the more of them you combine in the right order, the more monsters come to life, and the more horrifying they become. Create monsters that will make your opponents gasp in horror. Nourish them with your own fear. Make them stronger. Only then will you achieve victory and become the Master of Terror
