

Swintus^{3D}

cubed

*Revelry continues,
now in 3D!*

The continuation of the Swintus party now in 3D!
An exhilarating game for 2-6 people that are prepared
to do anything to win!

Throw the dice! Store up some food! Beware of Hamsters!

A true Swintus always thinks about food and would
never pass up a chance to store up some! Prove that
you are the best at hoarding food. Start chasing those
calories now! Each player has 7 dice of their own color.
The players roll the dice, combine the obtained values
into sets and steal food items right from their opponents
in plain sight. The player that is able to collect 7 pieces
of the same food item first wins the game.

Components

- 42 game dice (6 sets of 7 dice of different colors)
- 84 cards with dice combinations and pictures of food items
- Rules of the game

JUNIOR Swintus

*Piglet fun
for everyone!*

Swintus Jr. is the latest addition to the piggish series of games which is geared towards the youngest players.

It is different from the adult versions due to simplified rules and illustrations designed specifically for kids.

The object of the game is incredibly simple – you must get rid of your cards before your opponents do. You will be helped by a team of Superpigs.

Meet our heroes: the super fast Lightning Pork, the Greedy-Piggy, the Cunning-Piglet, the Cool-Beans Pig, the color-changing Pigameleon, the secretive Mystery-Piggy and the strict Ms. Sauerbraten.

The new special card, Ms. Sauerbraten, gives unprecedented opportunities for player creativity. Using this card, players can now invent their own ridiculous rules that their opponents must follow.

The game set includes:

- 56 super-cards
- 64 numbered cards
- Game rules

Свинтус

Подложи
«свинью» товарищу

The game set contains:

- 64 numbered cards
- 48 special cards
- The game rules

Svintus is a simple and exciting card game for any group of people.

It is based around a deck of numbered cards in four different colors. To start the game, each player receives 8 cards and the goal is to get rid of them as soon as possible.

The fun of the game lies in the special Pig cards that make the game unpredictable and exciting. You can force your opponent to miss their turn (Pigass), draw 3 additional cards (GreedyPig), change the direction of play (The Pig-go-round), change the color of the card in front of you (Pigameleon), forbid any talking at the table (Silent-Pig), or check the reaction time of your friends' turns right from under their noses, or sick the Pig cards on them.

All in all, you'll have to be a real pig to your friends.

Свинтус 2.0

More animals -
more fun!

The game set contains:

- 64 numbered cards
- 56 Prescription cards
- 18 Etiquette cards
- 16 Performance cards
- 22 Challenge cards

A variation on the best-selling Russian card game Svintus. Now there are more cards, more animals, and even more fun.

The object of the game is very simple – you need to get rid of all your cards. However, you can achieve this goal in any number of different ways. Confuse your opponents with Prescriptions, control their every move with Etiquette, break them down with a Challenge to a card duel, or make a fool of them with a Performance card.

The game is completely compatible with the original version, meaning that you can play a classic game of Svintus by removing certain types of cards. The new version introduces 3 new types of cards:

Etiquette Cards (Snake Behavior) – allow you to give cards to those opponents who have behaved a certain way during the game

Performance Cards (Show Business Parrot) – force your opponent to entertain other players with their talents

Challenge Cards (Dog-like Aggression) – give you an opportunity to intimidate other players

The game set concept allows the deck to be tailored using different types of cards to best fit the group of players and their prevailing mood.

Svintus. The rules of Etiquette

Свинтус

Правила этикета

*As disorganized
as a pig and as sly as a snake !*

The game contains:

- 62 numbered cards
- 36 prescription cards
- 12 etiquette cards
- Game rules

*A variation on the best selling card game Svintus:
Now the disarray of a pig and the deceit of a snake -
all in one box!*

The object of the game is as simple as it gets – get rid of all your cards. But it's easier said than done...

A Piggish bureaucracy can drive anyone crazy with its countless prescriptions. You must always stay alert!

Snake Etiquette cards allow players to punish each other for almost any move! Now you must not only pay attention to your cards, but also to what you say, how you move and how you look.

*As you can tell, the game guarantees
an incredible amount of paranoid fun!*
